July 28, 2000

MEMORANDUM TO: Distribution*

FROM: Fisheries Statistics Office

SUBJECT: Summer Flounder, Black Sea Bass, Spiny Dogfish, Scup, and
Loligo and *Illex* Squid Quota Report

Attached are the 2000 summer flounder, black sea bass, spiny dogfish, scup, and *Loligo* and *Illex* squid quota reports. All data should be considered preliminary and subject to change.

In addition to these six species, the weekly Atlantic cod landings report is posted on the Northeast Regional Office web page at the following address:
<http://www.nero.nmfs.gov/ro/doc/fso.htm> Beginning May 28, 2000 all seafood dealers issued a federal Northeast multispecies permit were required to report weekly purchases of Atlantic cod through the Northeast Regional Office Interactive Voice Response (IVR) system or the Massachusetts Division of Marine Fisheries IVR system if permitted in that state. Instructions for the Northeast Regional Office IVR system are posted on the web site above.

For the week ending **22-JUL-00**, 266 dealers held a federal Northeast multispecies permit. Sixty seven percent (67%) of those dealers who must report directly to the Northeast Regional Office (178 of 266) have reported. Because there are dealers who report to their respective State, they were not included in the above percentage of dealers that reported to the Northeast Regional Office.

Please contact Ted Hawes at (978) 281-9296 or via E-mail at Ted.Hawes@noaa.gov or Earl Meredith (978) 281-9276 or earl.meredith@noaa.gov with any questions regarding this report.
